Washington, Oct. 1.—All records of the Post-Office Department were broken during the last fiscal year. The annual report of Postmaster General Cortelyou will show that the postal business of the United States earned, during the twelve months ending June 9, last, the greatest revenue in its history, and that, exclusive of the rural free delivery system, this stupendous public service institution of the Government is on a self-supporting basis.

No part of the Government comes into such relations with the everyday life of the people, and the tremendous gains in the sale of stamps and money orders show they are using the mails with a liberality never before recorded.

Owing to the ramifications of the Post-

they are using the mails with a liberalty never before recorded.

Owing to the ramifications of the Post-Office service into every town and hamlet and reaching every home, the task of compiling the report is the most stupendous statistical task performed annually by any department in Washington. It will not be completed until shortly before Congress meets. Enough returns have come in, however, to show that more letters, packages and newspapers were handled, and more money sent through the mails, from June 39, 196, to June 39, 186, than in any similar period in the history of this or any other Government on the face of the earth.

NEGRO VOTE ISSUE

Gorman and Bonaparte Arrayed For and Against Poe Amendment, Which Would Disfranchise Negroes.

Washington, Oct. 1.—Shall the negro race continue to exercise the elective franchise?

This is the paramount political issue in the State of Maryland this fall. Senator Arthur P. Gorman, leader of the Democratic party of the State, says it shall not. Charks J. Bonaparte, Secretary of the Navy, says it shall. Gorman will direct the campaign for disfranchisement and Bonaparte will lead the fight against it.

and Bonaparte will lead the fight against it.

In Maryland the issue is called the Pocamendment. This is a proposition to amend the State Constitution, which the Legislature at its last session, directed should be submitted to the people. Its author is John P. Poc. Attorney General of Maryland.

This amendment provides the best method yet devised in any State for the climination of the negro as a factor in politics. It combines the "grandfather" clause of some States with the "understanding" clause of others.

The "grandfather" clause prohibits from voting any man whose ancestors in 1839 did not possess the right of suffrage. Few megroes in Maryland had acquired the privilege of voting at that time, and, therefore, only a handful would be able to take part in elections now.

The "understanding" clause requires any man, when challenged at the polis, to read and interpret a clause of the Constitution. Few negroes in Maryland are able to do this.

AFFECTS MANY VOTERS.

AFFECTS MANY VOTERS.

Thus those who would not be disfranchised by the "grandfather" clause would be eliminated from the political equation by the "understanding" clause. The extent of this possible disfranchisement may be estimated when it is said the ratio of negro to white voters in Maryland is one to five.

Senator Gorman has gone through a good many hard campaigns, but he considers this the greatest fight of his life. He told the Democratic State Convention on Thursday he would stand or fall by the results.

AFFECTS MANY VOTERS.

results.
Secretary Bonaparte takes direct issue with Senator Gorman. He contends that the Poe amendment is simply a conspiracy to perpetuate the power of the Democratic party, and especially the Gorman machine.
"This amendment," he said to-day, "is essentially immoral and unjust. It leaves the political rights practically of all of our citizens at the discretion of the election and registration officials, who often have been in years past men of infamous tion and registration officials, who erren have been in years past men of infamous

character.

"Every applicant for registration comes with the 'grandfather' and 'understanding' clauses, and if these officials are reckless partisans they can disfranchise any political opponent, whatever his ancestry, by refusing to be satisfied with evidence of his qualifications. THINKS FRAUD LIKELY.

'Independently, however, of these considerations, if the ring has the power to disfranchise at will every white voter of foreign birth, of foreign parentage, and every negro voter of the State, it will have the power to figure up a majority in every ward and county, and there will be no hope of insproved political conditions unless through the equivalent of a revolution.

New York, Oct. 1.—There came to the Barge Office resterday from Washington a telephone order which brought consternation to all of the 287 Customs-house Instructions were for all of the Inspectors to assemble at the Barge Office Monday afternoon to officially subscribe to a new rate of pay, or rather an old one, and to which the Treasury Department has reverted. In place of \$5 a day the Inspectors are now to be asked to accept \$4, and an allowance for expenses.

But what has disturbed them most is the report that Secretary Shaw has decided the \$5 rate which went into effect on December 1, 192, is unconstitutional, and that each inspector who has been drawing that sum will have to refund \$1 a day for each day that he has been drawing \$1. The conviction of Patrick was affirmed by the court by a vote of four to three, Judges Gray, Warner, Bartlett and Haight voting for the affirmation and Chief Judges Cullen and Judges O'Brien and Vann voting acainst it. Judge O'Brien, in his dissenting opinion, declared that evidence was admitted for the prosecution at Patrick's trial which would not have been received at a trial for chicken theft.
